REPORT OF PARK TRUSTEES

WILLIAM CHARLESWORTH LEVEY PARK

The heirs of Mrs. William Levey, through Mr Frederick Neilson of Hartford, Connecticut, have made a liberal contribution for two years past by giving an amount equal to that raised by the William Charlesworth Levey Park committee. This has made it possible for improvements to be made in the park, in clearing out the frontage on the highway.

An attractive "Rest-A-While Garden" with open fireplace, and rustic tables and benches, is provided for the comfort of visitors. Here, too, is placed a drinking fount, the gift of Colonel Webster Knight. On the upper terrace in the pine grove, three stone seats have been provided by Mrs. Neilson, in memory of her sister, Mrs. Levey. A swing is placed there, also. A trail will be cleared around the border of the park and along the river to make the beautiful river frontage accessible.

During the last summer many local residents held outing picnics in the park and visitors from many states stopped to admire and enjoy this roadside park, which is considered a most attractive asset to the community. Let all come and enjoy its charm and beauty.

MRS. CORABELLE G. FRANCIS.
MRS. CHARLES H. McDUFFEE,
MR. CHARLESWORTH K. NEILSON,

Report of the Superintendent of Schools

To the School Board and Citizens of Alton:

I have the honor of presenting my nineteenth annual report as superintendent of the Alton public schools.

STATISTICS

School records for the year ending June 30, 1931, are as follows:

Total registration was 224; 120 boys; 104 girls. Average membership, 198; average attendance, 187; per cent of attendance, elementary, 95; high school, 97. Neither absent nor tardy, 15. The number of visits by the school board was 6; by the superintendent, 319; by citizens, 266. There were ten school board meetings.

FINANCIAL CONDITIONS

The Alton school budgets have always been carefully prepared by the school officials having in mind both the needs of the schools and the necessity for sensible economy. School money has been used with proper care and without waste and without any deficits for a long term of years. The school board have understood full well the increasing burden of taxation especially during these times of depression and have planned the school budget to relieve that burden as far as possible and not cheat the Alton children of educational opportunities that belong to them. The citizens of Alton have always demanded good schools and they have had them. The Alton schools were never in better condition than at present. Probably never were they as efficient. The reports from state officials and visitors outside of Alton were never as encouraging and satisfying as this year has brought.

The budget for the coming year will call for approximately \$3,500 less than last year. This can be done for the year ahead for several reasons—for the first time some state aid will be available from the George Reed

Fund for Home Economics; more from high school tuitions will be received this year; some needs may be postponed for another year; there will be some funds in the treasury at the end of the school year. This reduction represents the wise and careful planning of the school officials with reference to the use of the Alton school funds. This also in the face of the fact that next year the state aid for the elementary schools will be \$500 less than this year, and the extra cost for several more pupils in the high school.

TRANSPORTATION

It is gratifying to the school officials and probably to all of the citizens of Alton to know that all of the buses for school children are perfectly satisfactory and the drivers entirely responsible. It is safe to say that no district in the state has any better transportation facilities than has Alton.

TEACHERS

The teaching force is the same as last year and all are doing excellent work with keen interest in their pupils and self-sacrifice that is commendable. Most of the reports that come from poor school work are the result of poor effort and unsatisfactory behavior. Why do parents expect their children to do better in school than they do at home? What is best for the child ought to be the basis for teaching and for the administration of all of our schools.

SUPPLEMENTARY ACTIVITIES

Health: Health supervision has been very valuable in the work of the schools. Parents have done remarkably well in seeing that physical defects were remedied where possible, and in helping children to form correct health habits. School clinics and pre-school clinics have proved their value to the Alton children.

Music: The value of music and music appreciation has never been as high as at present in spite of the wretched mess of jazz that fills the air at times. The

Alton citizens approve of the good work in music in the Alton schools.

Hand Work: What is done in manual training and home economics in the grades is not as well appreciated as it ought to be because people very seldom see any of the work in action. The teachers in the lower grades are doing constructive work with the hands that fits in well with the thinking processes that ought to be developed in school work. The child who does not think can never be trained.

CONCLUSION

Parents, teachers and citizens might come nearer together in their cooperation to help the younger generation escape some of the pitfalls and gain community assets that will be the best kind of commendation for positions of influence and personal satisfaction in the days to come.

Respectfully submitted,

F. U. LANDMAN, Superintendent.

Alton, N. H., February 15, 1932.

Headmaster's Report

To the Superintendent of Schools:

I herewith submit the following report of the Alton high school.

PUPILS

Sixty-nine pupils are registered for the school year 1931-1932.

Class	Number	Boys	Girls
Senior	14	9	5
Junior	15	7	8
Sophomore	13	9	4
Freshman	24	11	13
Special	3	2	1

Four boys and three girls were graduated in June, 1931.

Two pupils have entered higher institutions of learning and are doing creditable work.

Six pupils have left school—three moving away, two working, one sick.

The senior class marked above the state median in place geography and English.

Percent of attendance last year was 96, a little below the average. A small number of pupils was responsible for the drop. Parents can help such pupils by insisting on regular attendance.

CLASSIFICATION

Home Economics	13
Agriculture	20
Classical	23
General	13

Any aid that the headmaster can give in selecting and adapting courses of study to the needs of individual pupils will gladly be given. Success in school work depends a great deal on the wise selection of subjects.

SUPPLEMENTAL ACTIVITIES

Fundamental requisites are gained in Rhetoricals, Plays, Assembly Programs, Musical Entertainments, Fairs, Judging Contests, and Sports.

At the University last fall, the judging team won first prize in fruit, and placed second in livestock and poultry. One boy won first prize for the best dozen eggs in its division at the egg and chick show at Concord this winter.

The annual Agricultural and Home Economics Fair was a success and plans are in progress for a bigger and better one next year.

Our scholastic teams did creditable work at the state contests last spring.

CONCLUSION

We should like to have more parents visit our schools for our mutual benefit. Personal observation often gives an entirely different viewpoint and brings closer cooperation which is necessary in training our boys and girls for the highest type of citizenship.

I wish to thank the school board, superintendent, parents, teachers and pupils for the assistance given me in making this school year so successful.

Respectfully submitted,

ORLANDO A. LESTER, Headmaster.
